# FACTORY OUTLETS

Higher efficiency

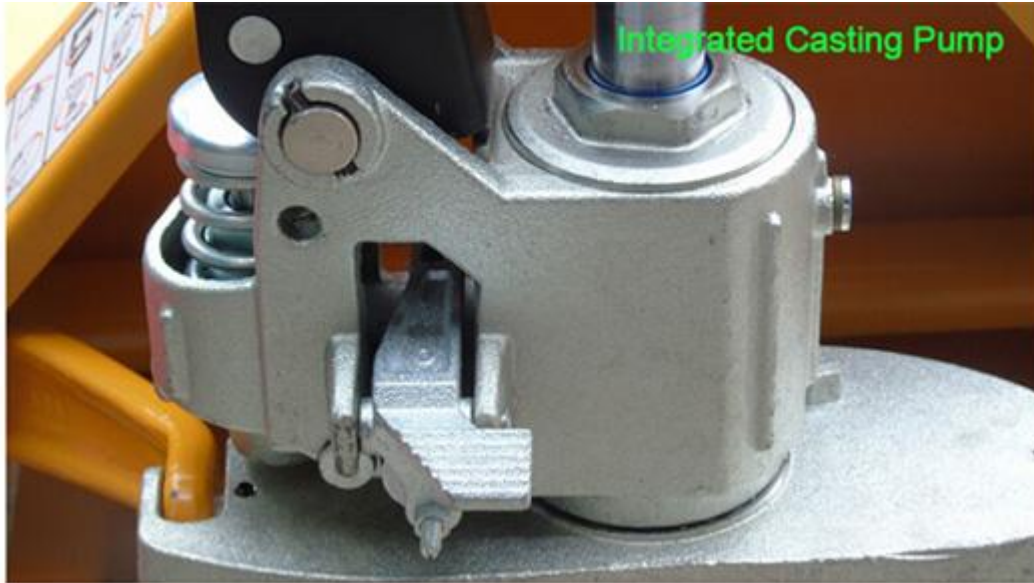

1. Our Manual Pallet Jacks use thick fork 4mm thickness, the thickness of conventional steel plates on the market is only 3.75 mm, and some are even only 3.5 mm. Our quality is absolutely excellent.

2. Our pallet jack each fork with 2 pieces 75cm long reinforced steel to ensure that the freight forwarder is not bent and deformed.

3. The pump is the core part of the hydraulic truck. The quality of the pump is related to the service life of the product. The pump we use is an integral AC pump, which does not leak oil and is easy to maintain.

4.HUGO brand use Robot welding, the welding seam is tight, there is no gap, and it is more solid and beautiful

5.HUGO Manual Pallet Jacks have the unique T design acts as a buffer to protect internal accessories when heavy objects fall

6.Rubberized handle, warm in winter and cool in summer. There are two different handle shape.
